

## HARMONY FORMULAS

### PARA-CONTROL

*A drug-free natural solution, complete with traditionally used herbs, enzymes and fiber, to maximize the body's defenses against foreign organisms*

**Para-Control** - Formulated from the successful clinical experience of Lindsey Duncan, N.D., C.N., Para-Control is a comprehensive two-part program that stimulates the body's immune system and creates an environment that is unfriendly to parasites. Many of the ingredients have been successfully used by traditional herbalists, plus Para-Control is designed to have a general cleansing effect on the body, improving overall health and digestion. The two formulas are designed to be taken together as a complete program.

**Step 1: Para-Rid** - This clinically developed formula addresses numerous physiological pathways, providing key herbal biochemical factors that parasites yield to. Para-Rid also supports healthy bowel function and digestion with two key proteolytic enzymes. (90 capsules)

**Step 2: Para Sweep** - Formula to enhance the body's eliminatory function, Para-Sweep is a unique mixture of powerful herbs and fibers that help bind and remove wastes from the colon. By maximizing bowel transit time and ensuring healthy elimination, waste products and the remnants of parasites are encouraged to exit the system. Para-Sweep also plays a critical role in eliminating toxins from the colon and kidneys, while strengthening and balancing the digestive and elimination systems. (90 capsules)

**The End Benefit:** By restoring the digestive system, bolstering the natural defenses of the body, and providing key herbal and botanical factors, Para-Control is designed to offer natural, honest and effective support, harnessing both traditional and modern day approaches to good health and natural healing.
